

The 1<sup>st</sup> of December 2016

### Recommendation Letter

Mr. Vincent LEFOULON has worked with ANSYS as Project Coordinator for a programming project involving the ANSYS SCADE® tools and the LEGO® technology between July and December 2016.

All along the project, Mr. LEFOULON has implemented a trusty and positive environment that lead the project to its success. He showed seriousness, dedication and positivism. His method and curiosity made him get started quickly on the project.

During these six months he had shown a great enthusiasm at work, and the ability to work independently. He understood perfectly our needs and requirements to provide a quality deliverable.

Should you need more information, please feel free to contact me.

Sincerely,

Chloé DASSE

Senior Product Marketer – Academic Program Manager
